# PROMOTER STATEMENT

---

The essence of any enterprise should be observed through its value proposition to society. And the determination of its value mustn't be measured by its numerical evaluation but by the motive it is established for.

## **We are on a mission.**

A mission that we believe is bigger than our competition, more fruitful than market share, and far greater than any numerical value.

Our mission is to use the best technology and innovation to meet every day needs of all patients. Adoption of stringent quality control measures right from the stage of procurement till the stage of product delivery and regular upgradation of knowledge and skills to match the latest industrial standards. Our mission is to improve the quality of life by enabling people to do more, feel better and live longer.

This mission drives us to make a real difference to the lives of millions of people with our commitment to effective healthcare solutions.

We wish to see you Happy, Healthy and Prosperous and hope to build a long-serving relationship with you.

Sincerely,

**Mrs. Meenu Khaneja**

**CHAIR WOMAN**

**RADICON LABORATORIES LTD.**  
CARE, CURE WITH CONFIDENCE

# ABOUT US

---

We take pride in our extensive production capacity and wide range of products. With over **400 approved products and 600+ branded generics** in the market, we strive to meet the diverse needs of our customers.

Our annual production capacity speaks volumes about our dedication to delivering high-quality pharmaceuticals. For **tablets**, we can produce a staggering **36 crore plus units**, ensuring a steady supply for our valued customers. Additionally, our capacity for **capsules** is an impressive **18 crore plus units**, while our **ointments** reach a capacity of **10 crore plus units**.

Behind our success lies a team of over 150 dedicated employees, who work tirelessly in our manufacturing unit.

They are the backbone of our operations, ensuring that our products meet the highest standards of quality, safety, and efficacy. Our workforce is committed to excellence, and their expertise and hard work contribute to the success and reputation of our company. At our manufacturing facility, we prioritize efficient processes, cutting-edge technology, and stringent quality control measures to ensure that every product leaving our premises is of the highest standard.

We are committed to continuously improving our operations and expanding our product portfolio to cater to the evolving needs of the healthcare industry. As a customer-centric organization, we strive to maintain strong relationships with healthcare professionals, distributors, and partners to ensure the availability and accessibility of our products.

We prioritize customer satisfaction and aim to be a trusted partner in healthcare, offering reliable and affordable medications. We look forward to serving you and meeting your **Pharmaceutical** needs with our extensive product range, impressive production capacity, and dedicated team of professionals.

# OUR JOURNEY

---

From a **Medical Store** to a **Global Pharmaceutical company**

The Story of **Radicon Laboratories Ltd**" (Started) In 1971,

Our journey began with a small medical store, Gobind Medical Store. Over the years, we expanded into multiple firms, driven by our commitment to providing high-quality healthcare products to our customers. Rakesh Kumar Khaneja did indeed establish Radicon Laboratories Ltd in 2007 with a focus on exporting healthcare products worldwide.

Our first destination was Afghanistan, where we saw a great need for quality medicines.

The years that followed were marked by significant growth and progress. In 2014, we started setting up our own manufacturing plant, equipped with state-of-the-art technology and staffed by a highly skilled team. This enabled us to produce a wide range of medicines, including tablets, capsules, and ointments, all of which met the highest quality standards. The fruits of our labor became evident in 2018 when we exported our first shipment of products manufactured by **Radicon Laboratories Ltd**.

This was a proud moment for us and reinforced our commitment to quality and excellence. Today, we are a leading player in the healthcare industry, exporting our products to countries such as Afghanistan, Iran, Iraq, Hong Kong, and other CIS countries. Our success is driven by our unwavering dedication to quality, our passion for innovation, and our commitment to providing the best possible healthcare products to our customers.

At **Radicon Laboratories Ltd**, we are proud of our journey so far and excited about what the future holds.

We remain committed to being at the for front of the healthcare industry, delivering cutting-edge products and solutions that make a positive impact on people's lives.

# COMPANY OVERVIEW

## RADICON LABORATORIES LTD

A leading Pharmaceuticals company in india

 <b>FOUNDER</b>	: Mr. Rakesh Kumar Khaneja
